

Dear ladies and gentlemen,

I am father who is being smashed against the rocks of the CSA regime and the family court. Please, please, please hear our plea and support the rebuttable presumption of 50/50 parenting.

My kids, my future and many thousands of others rests in your hands. You don't have to look overseas to see a human catastrophe, just look in your own backyard. Men are dying at a rate that should make any of us shudder. I can tell you that CSA and the Family Court are instrumental in their demise. Please do not forsake those that you could save.

You might say catastrophe is a strong term to use, but ask the kids of the fathers who haven't been able to stand a minute longer of having to endure this hell on earth that the Government and the Courts have created for them.

I pray for you and us that you make the right decision.

Regards,

Adam Neilsen
