

Dear Senate Inquiry - Shared Parental Responsibility Bill 2005

This is a my submission to the Senate Inquiry into the provisions of the Family Law Amendment (Shared Parental Responsibility) Bill 2005

I am making this submission to this enquiry with the following issues. I believe that equal parenting time is in the best interest of the child because if the parents were to stay together that is how it would be and i believe every child needs a mother and father influence in there bringing up. Domestic violence is a problem don't get me wrong but when are we going to investigate it on both sides I have been accused of violence sexual assault and yet nothing ever to substantiate the claims but automatically i am assumed to be the violent one, yet more often than not i was the one that was being abused yet because i am of a solid build and tall it is assumed how can she be violent towards me. Sole custody does greatly increase the risk of child support because then the child is with the one parent and wouldn't feel comfortable to tell anyone and at least with the other parent they could build that bond and the child would be able to express there concerns.

Thank you for reading my submission
