

SUBMISSION TO SENATE ENQUIRY ON MANDATORY DETENTION

I wish to make a late submission as I've only just found out about the ability to submit.

I am appalled to be Australian and watch innocent people's lives being destroyed by being stuck in detention. I would happily take a person into my home to save not only ridiculous amounts of taxpayers money from being wasted, but lives being ruined and all in the name of greed. This is a large country and we should be sharing it with more people who are less fortunate than we have had the luck to have been.

Detention is not only is barbaric. Socially unacceptable and not something, I as an Australian citizen, would wish on any human being. I wish for it to be ceased immediately.

The funds for paying for detention services and prison staff could be better spent on actually "processing" visa applications. Then people wouldn't have to be kept waiting around for years for answers!
