I want to start this letter with something bothering very much, it is about my life here after these for years .I became very lonely and lifeless I spend my days only sleeping in this camp. I am not like before anymore .I do not live in the days anymore, it is because of the emptiness, there is no people at all ,the place here is like place of dead people, the people here are very little epically in this Tuesday the Afghan who lately excepted will leave us to Australia we will be only 32 people ,I do not know what to do in this loneliness and emptiness which is killing me ,I feel I do not have patient anymore .

Thank you for you to listen to me, I hope you can help me also with Telstra phone away card .so I can call my father, when I call him this will make me comfortable

I truly hope from God to not put anyone in this ugly place.

Thank you, with my best wishes.

Espacailly at night I can't sleep but I don't want to go to doctor because they gonna give me tablets and I know it has a lot of site effects.
