

Dear Sir/Madam

I do not believe that the DIMIA -Australian Government is humane

As a frequent world traveller it is very difficult to explain the incarceration

at great Government financial expense of the refugee's

who are a non-criminal section of our society

This discriminate against them in a way which

is makes mockery of Australia as a signatory to the International Declaration of Human Rights

Incarceration - without end is know to cause profound mental harm,

to this highly vulnerable group.

I believe there should be a Royal commission on the basis

of our inexplicable inhumanity to Refugee's who are human beings

and therefore deserve to have thier basic rights respected.

Dr Miriam Orwin
