Subject: Indigenous Intervention

I agree with the intervention by the government to protect children subject to child abuse. (Albeit 11 years too late)

I don't agree with the land grab by the Australian Government. To me this action opens the door to property developers to exploit unsophisticated aboriginal people by offering cash in exchange for land.

This is particularly relevant in coastal communities where developers and the mining industry have lobbied the Howard Government for many years.

The current advertising campaign on behalf of the government by Big Business Interests (the gods of greed) is obviously a payback demand by the Howard Government
