President of the Senate
Australian Parliament
Canberra
ACT
8th August 2007

Dear Sir,

I am writing to address the Senate in relation to the Legislation being passed in response to the Children Are Sacred Report. Anderson.2007.

The NIHRCA is formerly objecting to this legislation and the Commonwealth Government are in breach of the Commonwealth Constitution Act 1901, Chapter V. Section 116.

Children are the Centre of a sustainable system of Aboriginal, spiritual and cultural laws, these laws are universal that connects humanity to the land and the cosmos. Our religion relates to the land as it is read in the Holy Bible.

Genesis Chapter: 2: Verse: 7 "And the Lord God made man out of the dust of the ground and breathed into his nostrils the breath of life and man became a living soul."

Aboriginal Law is derived from the Natural Laws of Creation, recognised by the Holy Bible, under the All Mighty of which all Laws derive. This law has been here since the beginning of time long before it was written in English in the Holy Book. Our customary Laws evolved around the children from conception and beyond the grave. The Law of our Peoples is lived by example and repetition. An evolving living thing and our Peoples are born into it.

The children are the centre of Aboriginal Laws as the condition of the land is taken into consideration before a child is conceived. That is directly related to our spiritual and religious connectedness to the land. The Peoples and the land must be healthy in order to receive a child into the society. Aboriginal Peoples lived that law, honouring and respecting the creation of the planet and of mankind that begins with a child this was intact before the invasive and inhumane colonisation of this country in 1788.

We have the answers in our unique and sustainable system to resolve the problems of humanity and the planet. The systematic oppression, deliberate dispossession and removal of Aboriginal peoples from their homelands are in breach of the aforementioned

Chapter V. Section 116 of the Commonwealth Constitution Act [UK & Commonwealth 1901].

The system that is being promoted and enforced upon the Aboriginal Peoples of this country is a tool of Genocide. Assimilation is Genocide. The neglect and the perpetuation of racist policies endorsed by the Crown & Commonwealth has made in some cases, an irreversible detrimental impact on the Aboriginal Human Race.

The key to the survival of our Peoples and our future generations is not the inhumane and invasive solution proposed by the Australian government; on the contrary it will confirm the fact that the Australian Government is committing the criminal act of genocide. While Australia boasts Christianity they are saying that land is to be bought sold and leased. This is the desperate attempt of the Australian government to conclude the premeditated plan of dismantling everything that Aboriginal People have put in place to ensure our survival.

The Anglo Saxon, Anglo Australian and the Anglo American that has formed the "Coalition of the Willing" are embarking on the biggest land grab in the history of the planet by invading the Middle East for Oil and Australia for Uranium both elements that could cause mass destruction of the globe and the planets inhabitants. Both invasions were based on monumental lies in Australia it was and is the perpetuated lie of Terra Nullius and in the Middle East is the Weapons of Mass Destruction.

On the eve of the Federal election Mr Howard and his counterparts are enforcing this hurried legislation in a desperate attempt to achieve the goals of the Coalition of the Willing's access to the mineral wealth of the Middle East and Australia.

The wealth of the commonwealth today is the proceeds of crime, enforced by criminal acts against humanity by a group of governments who portrays an illusionary sense of superiority amongst their fellow human beings.

We trust that justice and humanity will prevail.

Yours sincerely
