AMENDMENT BILL 2007

Thank you for inviting the NSW Independent Commission Against Corruption to make a submission to the Senate Legal and Constitutional Affairs Committee on the Telecommunications (Interception and Access) Amendment Bill 2007.

Having considered the Bill I advise that the Commission does not consider it necessary to make any submissions other than to note that the Commission supports the desirability of a single comprehensive legislative regime dealing with access to telecommunications information and the transfer of provisions from the *Telecommunications Act 1997* to the *Telecommunications (Interception and Access) Act 1979* to give effect to this goal.
