

Mr Beazly.

I am really concerned with John Howard's intended anti terror act's, to be passed in Parliament esp. sedition as 99% of the population of Australia could be imprisoned for voicing their opinions against government policies.

quote from the Macquarie dictionary

sedition

1 -incitement of discontent or rebellion against government:action or language promoting such discontent or rebellion .

2- archaic - rebellious behaviour

As if I have to quote that, is he going to bring in thought police to monitor our thoughts, will he pass an act of parliament, that anyone disfiguring his Picture in the paper will be jailed with out trial even if it's a child, arrest all union officials and members ( Bob Mugabe).

It seems to me that this is the path that he is taking, although he will deny this,I think that this is the path that he will take.May be declare martial law heaven forbid, nearly there already.

Regards

Ron Morris
