

Dear Sir,

I strongly have to reject the new terrorist laws for the following reasons:

1. I was born and raised in post-war-Germany.

The question I asked all my elders was: Why did you allow this to happen?

Answers I got were along the lines of: I was too

busy to make ends meet, I was not interested, I was afraid... These answers did not satisfy me one bit and I promised

myself to never allow such an injustice to happen and to speak up when necessary!

2. Well the time is now!

How will I answer my teenagers questions in a couple of years? I have to loudly let everyone know that I do not approve

laws that very much resemble Hitler's "Ausnahmezustand" a law that led to so much suffering, death and destruction!

3. Also I ask to establish a "Bill of Rights" as a means of Democracy!

4. When I first came to Australia I felt inspired by a nation of free thinking people and leaders. I was keen to become an Australian Citizen and felt honoured to be accepted! Now I wonder if I have the wrong passport again!

Please stand up for Humanity, Justice and Freedom!

Yours respectfully

Gisela
