

Dear senate,  
this is just a brief note to let you know we had a massive power-black out due to a thunderstorm yesterday so we have posted by express post a submission relating to concerns we have regarding the Anti-Terrorism Bill 2005 . We earlier last week submitted this to our local Federal member Margaret May MP who may also forward this study to you. We appreciate the opportunity to voice our thoughts on the new Bill as we are a large group of over 9000 members ranging from World War II Veterans, artists and entertainers through to young artists we support the need for the Bill we would just like some additional detail given to those who will enforce it so that our young people who spray are not mistaken as terrorists. thanks June Hintz
