

Dear representatives of the people of australia - not just the present people but for those in the future-

Please make major changes to the legislation to ensure

- 1) there is full accountability and review of any decisions and actions
- 2) there is privacy between defendants and their lawyers
- 3) there is a very small limit for detention without charging and trial

These are the processes we are supposed to be defending NOT IMPLEMENTING THE OPPOSITE.

That John Howard is such a fearful person is a problem for this country.

In such a case as this legislation you must stand up for justice not react in a fearful and negative way.

My grandfather - a staunch liberal sat on the High Court for the Menzies ban the Communist case.

He regarded that decision - to preserve freedom - as the most important of his career.

You people are facing the same decisions.

David
