

I understand you are involved in some discussion regarding the introduction of the upcoming bills...please see below for a message

Good Afternoon,

I am saddened, frustrated, angered but most of all scared by the government's forcing through 2 of the most damaging bills this country has ever seen.

the anti terror laws threaten everything that I, as an Australian stand for, they are based in fear..and use fear as a controlling tactic. The new laws take away many basic human rights and are being forced through without true debate..therein lies the fear, if i am to be governed without my opinions being taken into account..then this is no longer democracy.

The IR laws are going to send many of our unskilled and particularly young people to a life of poverty and begging. Mr Howard has suggested that its a workers market..this is clearly not the case if you are at the lower end of the employment market. The hospitality workers, trolley pushers and call centre workers can be easily replaced by someone who is prepared to work for less money and less rights, we risk ending up like America..very limited welfare, people working for tips and a sad country.

I am not a member of any political party, union or affiliated to any group at all. I am simply a middle class, middle aged, white Australian male. I am supposedly the typical Aussie. If that is the case please see this email as coming from the huge demographic that i represent, I beg..yes beg..that every member of parliament look at these laws and ask. Am I doing the right thing by the people i am supposed to represent?

If you are a member of the government please cross the floor and at least put these on hold..if you are a member of the opposition, or an independent, then please fight these with every breath, protect those your are elected to represent and DO THE RIGHT THING!

Thank you.

G R Bradbury.
