To members of the Senate Legal and Constitutional Affairs Committee.

This Bill is a little beauty,

We will have every crook in the book lining up to be "couple relationshipped" so they can be excused from giving evidence against their "mates".

If the whole thing wasn't so serious I could have a big laugh but at this moment I could be taken and hung for the things I would like to do to the people that propose these Bills.

Yours sincerely,

Darryl Allen
