Re. The Evidence Amendment Bill 2008.

Dear Valued Senators,

Its concerns me greatly to hear of the proposed changes to this bill.

The possibilities for abuse are endless.

Once again I would ask you to oppose this bill

Marriage is by its very nature is a much stronger relationship, and thus has certain privileges.

There is no need to extend these privileges to same-sex relationships.

Marriage needs to be honored and protected as fundamental to a stable society.

Thank you for your consideration of my opinion.

Yours Sincerely,

Mrs Sharan Hall
