

I speak to the proposal of the private senator's bill that seeks to remove all discrimination from the Marriage Act 1961 on the basis of sexuality and gender identity and to permit marriage regardless of sex, sexuality and gender identity.

The Marriage Equality Amendment Bill 2009.

I would like to submit to the House that the Senator is wasting their Time as Marriage is essentially only ever a Covenant Act between a Progenitor Couple and that any combination other than one Man and One woman is

Non-Productive and Mischievous . I am adamant that when a lawmaker sets out to change a law on which their Country has had a firm foundation, that lawmaker seeks to destroy a sound foundation and replace it with a seed of societal destruction. The Senator seeks to remove the Right for only Mixed Couples to marry and displays a strong discrimination against the status quo while trying to claim some positive outcome from a non-Productive liason.

As long as the Senate entertains the Idea that there may be something to this Private Senators Bill, the Upper House of this Government will be entertaining it's own destruction. We see around us the results of much of this selfish and Short-minded thinking in the Abortion laws around the world that have since, their inception, Killed off many of the new baby boomer workforce. Only countries that have been more generous are now able to spare workers.

The main point to marry is to have a family, and the Private Senator is obviously blissfully unaware of how so many of today's generation are adrift because of the culture that says we have the answers and don't know why we have problems... The Senators lack of personal relationship with young People and their quest for truth and stability and responsible leadership leave them wanting much. Same sex relationship is choice for personal safety or often a rejection of one's own creation. It needs to be in a separate classification to Marriage as it can only plead to look after Children out of Opposite Sex Unions. To have Same Sex Marriage is Hypocrisy and this Change to good Legislation needs to be thrown out of the House ...
