

Subject: Inquiry into the Marriage Equality Amendment Bill 2009
Committee Secretary:

I want to support marriage is only between one man and one woman, to the exclusion of all others, voluntarily entered into for life.

The Wife, Mother (female) has a definitive roll in a marriage and family.
The Husband, Father (male) has a definitive roll in a marriage and family.

When these rolls are interfered with the family unit's definitive rolls in society are interfered with and becomes out of order. (A simple analogy is: if you didn't have road rules, things would be out of order, chaos would eventually occur and confusion would reign.)

Please look at the realistic values of our society and motion towards one man and one woman marriage.

Regards
