

Hi,

My name is Hope Musch .

I am 14 years old and I live with my Mum and Dad in Queensland.

I am writing to tell you there should **no** be same sex marriages.

Every child should have the privilege as I have to have a Mum and Dad to grow up with.

The kids that have two mums or two dads will not have both the correct male or female influence on their lives. Even on TV this morning it was said that men that get married to women will be healthier.

So please do not allow same sex marriage law!

Yours faithfully,

Hope Musch
