To the Federal Senate,

I wish to make a submission in regard to the same sex 'marriage' Bill.

My family and friends are in support of marriages to remain heterosexual ONLY.

We believe things be kept *as intended* and hope for a clear path of moral behaviours to be set for the current and upcoming generations.

We also oppose any other form of legal recognition for same sex & multiple partner relationships that occur in other counties.

I do hope the light will shine on what is right and good for our country.

Kindest Regards.
