

Re: Marriage Equality

25/8/09

To the Senate,

We can't have homosexuals getting a grip in society. First of all it's against God's law. Second of all it is against nature. Third of all it is perverted. Think about it, the reality is fags take an erect penis in the arse and lezos touch each others vaginas.

Therefore there can be no legally recognised homosexual union. As John Howard formerly said, 'marriage is between a man and a woman (only).'

Best regards,

Bernard Curran.
