

Enquiry into the Marriage Equality Amendment Bill 2009

Please don't change the legal definition of Australia's Marriage Act nor its requirement that marriage be legally recognised as a Covenant Act between male and female union only.

The majority of Australians have accepted and lived within these boundaries since the foundation of this Nation based on its Christian Heritage and Values which have always worked within God's Framework. We do not want to be changed and controlled by an un-Godly model.

Every human being has needs which can only be met by a father and a mother, both fulfilling their God given talents and complementing each others roles and needs for themselves and their children. History has proved this.

Our society suffers even now when these needs are withheld from innocent children.
