

I believe that marriages should be kept to one man one women! Marriage will never be a sacred again if this law is passed! It is important for us to be an example for future generations to stick up for what we believe in and this is one thing I don't want changed! Marriage is a commitment to one person so long as you both shall live and I don't think gay people need it necessary to be married when I don't believe that gay people are chemically imbalanced I believe it is choices made by that person to become gay! God did not create a man and a woman so that someday they would choose to start being attracted to their same sex.

So no I don't believe Australia should allow same sex marriages!
