

To Senator Sarah Hanson-Young

Re: 'Marriage Equality' bill

I'd like to urge the Senator to consider **not** to go ahead with the bill; it will ruin more life of our young generation. We are already in crisis!!! I cannot imagine what is going to be like when a child is raised by two men or two women.

Marriage is created for a man and a woman, never for the same gender. Marriage is about love, commitment, fidelity, and the stable nurturing of children where they are the product of marriage. These qualities are what make marriage the building block of society.

Children from gay couple will have problem with their self-esteem, they will have trouble at school, society etc. They will have trouble to understand the value of family.

Please please do not make gay marriage legal in Australia! Please care for our country, care for our young people!!!

Thank you,
