

I strongly disagree with the view to consider allowing same sex marriages.

I am appalled to think that a country that started out with the Bible as the book of authority in the courts system, backed by queen Victoria as good enough to swear an oath on in our court system would now allow a blatant contradiction to the words found in the BIBLE in Roman chapter 1 verses 18 to the end of chapter 1.

This clearly outlines that the Creator of the universe and us declares that same sex sexual relationships is against the natural and is a result of lust and a turning away from God and the Bible.

I ask that this legislation be abolished and not allowed to be passed in the senate.

I will be happy to debate this with any who wish to discuss it

Yours sincerely
