

Marriage equity

- Marriage is to remain between Men & woman
This is how we were created, & this is how we would love to be
They can go to a doctor and be converted if they want. But do not spoil the fatherhood not the motherhood
- We cannot accept oversea ideas in Australia just because it is different, We had to think & test against our believe
- No Marriage for the same SEX. By doing that we are breaking the families& breaking the meaning of a family
- We would love to pass to the next generation morals & meaning for life, rather than stupid ideas from overseas
- God create us Men & Women to form a family not to destroy it
May God bless you
