

To Whom It May Concern

My name is Gary Whitney and I would like to say I think the laws regarding equal rights for peoples of minorities to have the right to be married.

When it comes to Marriage I don't believe that heterosexual couples are the only couples are eligible for this union. I also think that minority couples that currently can't marry are disadvantaged as they don't have the same awarded protections that heterosexual married couples have.

I also feel that sexuality is not a choice it is something bigger than simply choosing to be gay or straight and gay relationships can be just as strong and loving as any straight relationship.

As a young 24 year old I believe and have been taught to that tolerance is the way a society needs to function and living in a multicultural country that Australia is I feel we as a society need to change this law as gay culture has been around for a very long time.

Thank you for taking the time to read this letter.

Yours Faithfully

Gary Whitney
