

Inquiry into the effectiveness of the Commonwealth Sex Discrimination Act 1984 in eliminating discrimination and promoting gender equality

The discussion on the rights and process of humans is complex and fraught with many individual interpretations based upon the experience and worldview.

However, I would like to make a number of simple observations on the fundamentals of society

General type of culture
Time in existence Years

1 The Christian based upon the revelation from God through Jesus has a view that Male and female have different but equal and complementary roles in society
2000

2. The evolutionist would have us to believe in the male hunter / gatherer and the female cooking the food and looking after the children
10 Million

3. Asian Society is mostly based upon the patriarchal
4000

4 Jewish society is based upon the ten commandments and mostly patriarchal
6000

5 Muslim society is a patriarchal with the option of many wives
700

6 Modern Western society where male is morphing into female and female morphing into male
30

Whilst, I acknowledge that women and other sectors of society have needed to improve it may have reached an acceptable level already.

The importance of Fathers is critical to the foundation and stability of society and should not be undermined in the process of trying to produce an artificial balance by inappropriate legislation.

I would appreciate if you would consider the above and the ramifications of tampering with the fundamental building blocks of society in the interests of changing for the sake of change

Kind Regards
