Dear Sirs and Madams!

This letter is in support of Senator Bob Brown's R.O.T.I. (Euthanasia Laws Repeal) Bill 2008.

We have been waiting for this for a tad more than 10 years - will the change in Federal Government improve our chances?

Death-with-Dignity has huge support in all states of Australia and far, far surpasses messy and bloodied suicides, "Thelma & Louise" inspired car accidents let alone dribbling in a wheel chair. . . .

Waiting out for your "time" endlessly in palliative care should be THE choice.

The right to die is a fundamental right of individual liberty and choice.

Salutations to Senator Bob Brown!

Yours faithfully,

[REDACTED]

(MRS BETHA WENDY WALSH)
