

The Secretary
Select Senate Committee on Medicare
Senate
Parliament House
Canberra

Dear Sir

I wish to join my voice to those who want Australia to have a universal health care system which is available to everyone, irrespective of level of income, financed through an equitable tax system such as the levy.

Health care and education are the things which should be available to all Australians and anything which divides us into rich and poor, privileged and underprivileged is abhorrent to those of us who believe in a fair go for all in this beautiful country into which we were lucky enough to be born.

Sincerely
Sean Cruise O.A.M.
