

13/1/07

Dear Mr Georganas

I note your report in the Advertiser concerning your concern about a Bill to extend development at Adelaide Airport.

I share your concern and would urge you to oppose this proposal.

Vales' comment that residents would be involved in consultation is a joke, as poor history on consultation is well documented. Any new development would increase the visual pollution already evident.

Since the establishment of Ikea and Harbortown the traffic-build up on Bradman drive has been immense and I have noted the dangerous situations that occur at times it is almost impossible to cross the road as a pedestrian.

Even without any further development this situation is of great concern and I would urge you to press the local council to extend Jubee Beach Road into the Airport to ease this situation.

Regards

A Mc Dowall

Mrs Amy J. McDowall
