Dear Mr. Georganas,

Thank you for your correspondence regarding the
Airport Amendment Bill 2006.

I have with forward my comments + views whether
they are relevant to the Bill or not.

I object to the continuing shopping complexes
surrounding the Airport, it is an Airport and not a
shopping precinct the proliferation of these buildings
are in my considered opinion are a safety hazard their
encroachment on the limited space in the case of
emergencies is an example of Federal mismanagement
and greed.

West Torrens Council and residents should have more
say and control of the development of this land.

The current covenants should be strictly maintained and
enforced.

West Torrens Council and residents should not be
penalised and disadvantaged by Federal objections and
constraints regarding payment of rates + dues.

Without Prejudice

Yours Sincerely,

Steve Georganas
