

**Dear Madam,**

**Please do not build the Traveston Dam. Other places can be found for it. You do not have to strip people of their rights to their homes and livelihood. Other things can be done. Why should they be forced out when they have good agricultural land, dairies, and farming land. Why drown this when we are losing good land to salinity everyday?? These people have worked all their lives to produce a living and to have something for their children. What about all the people further down the river that flows past their property, they brought that land, it is theirs, not for some maniac of a dictator to force them off it. It is disgusting, this government is disgusting. It is against common decency. Do not allow it to be built, please.**

*JUSTIN PVE 15 North ST MARLBOROUGH 41650*
