

4.8.09

Senate Committee,

Why Change something
that is working!

My Niece lives in the far west
Coast ^{5th AUST} ^Viohrs drive, would like to be a music
teacher she has worked part time from 15yrs
of age saving to go to uni as her Parents
have told her they can't support her and are
not that keen for her to go to uni.
She is currently doing a trainee ship
for 12 mths to reach the criteria for
Youth Allowance, she will still have to work
to support herself and have kids fees
at the end of her study, you are
going to block these kids with this
initiative. There are plenty of these
kids out there

With 4 current drought years this will
really make it hard for country families to
support these kids as the parents are already
working to support the farm's!
Changing this you are stopping future
Leaders & Managers and in general trained
workforce they often come back to work in
Country areas.

PJO

Don't make it impossible for these
kids! Don't change this please.

Your faithfully
Maria Hutchings
