

Narrogin Rural Student University Access Group

Submission to
Senate Rural and Regional Affairs and Transport References Committee.

We are a group of people aiming to facilitate the rural student with a method of study with a university, at a local level.

Our members comprise of 16 neighbouring local councils, 8 persons involved in education, and 10 persons from the community.

Incorporation documents for the group are in the process of being completed.

The aim of the group is **To obtain necessary resources and University places which will provide greater educational opportunity for rural students through the provision of a university level educational facility, located in the Town of Narrogin.**

We request that all Government departments support and assist our group in eventually establishing a University campus at Narrogin.

Economically this would mean financial savings on behalf of the student and supporting family, and would be a financial boost to the region.

Socially, this would assist in retaining students and families in the rural areas.

Vice President:
Deputy Mayor Councillor Don Ennis.
Town of Narrogin

Mel Crosby
Acting Secretary.
