

201 Hindmarsh Dr.
Rivett ACT 2611
24-1-01

How can an ordinary citizen put in a submission, I wouldn't know how to start. I don't have a computer, but feel I must complain about the underhanded way publication of changes to our CPI, when we are puting up with higher prices. We've borne the GST for a year, every bill has GST added, the rates go up and I feel like I am being forced to do without something else.

Politicians don't have CPI, why aren't we all the same. I wonder why I struggled to buy a home and paid my kupa.
We have all discussed this and felt we should write a letter, not that I think it will do much good.

I remain poorer each year.

Hazel Arnold
